

DECORS
LED MIRRORS

Easy Sophistication

Elevate the aura of your space with DECORS USA's beautifully lighted LED Mirrors. This range of mirrors is capable of both ambient and general lighting with embedded sidelights, securely hidden behind the frosted glass to provide soft lighting in any space. When rooms are darker than usual, our LED Mirrors come to your rescue by providing enough light to see details. Combined with an adjustable lighting system, smart sensors, and international standard safety features, our UL-listed LED Mirrors add simple sophistication to your home as well as commercial spaces. Each of our masterpieces from DECORS USA can be customized to fit in the ambience and style of your refined preference.

Lasting Design

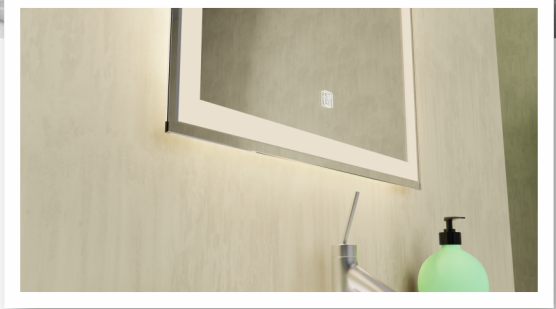

The durable-yet-stylish Decors USA LED Mirrors are very versatile. They fit into any residential or commercial set up easily with timeless style and sophistication. Our mirrors are highly recommended to be used in the following spaces:

- Hotels
- Restaurants
- Powder Room
- Salons
- Living Room
- Kitchen
- Bathroom
- Hallways
- Offices

Advancements

- Even-facing lighting for brilliant facial illumination
- Greater luminance with half the power of traditional LED mirrors
- Sleek and modern profile
- Forward-facing task lighting
- Environmentally friendly
- Energy-efficient dimming
- Fast lead times
- UL listed
- Easy installation

Features

Built-in Defogger

Prevents condensation or fog formation on the glass

Memory Function

Regulates the brightness of the light by remembering the preferred settings

ON/OFF Touch Sensor

Easily accessible sensors to enable quicker light functions

Safe Edges

Beveled and flat-edged mirrors prevent cuts, tears, and snags

Wall Mounted

(Vertical & Horizontal Hanging)

Provides flexibility in usage depending on the space available

Color Temperature Options

Gives options to choose from a range of warm to cooler lights

Solid Copper Wire

Ensures durability with higher flame-retardant capacity and low fray design

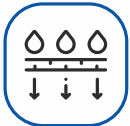

Copper-free Silver Mirror

Makes it shatter-resistant and helps prevent rusting and discoloration

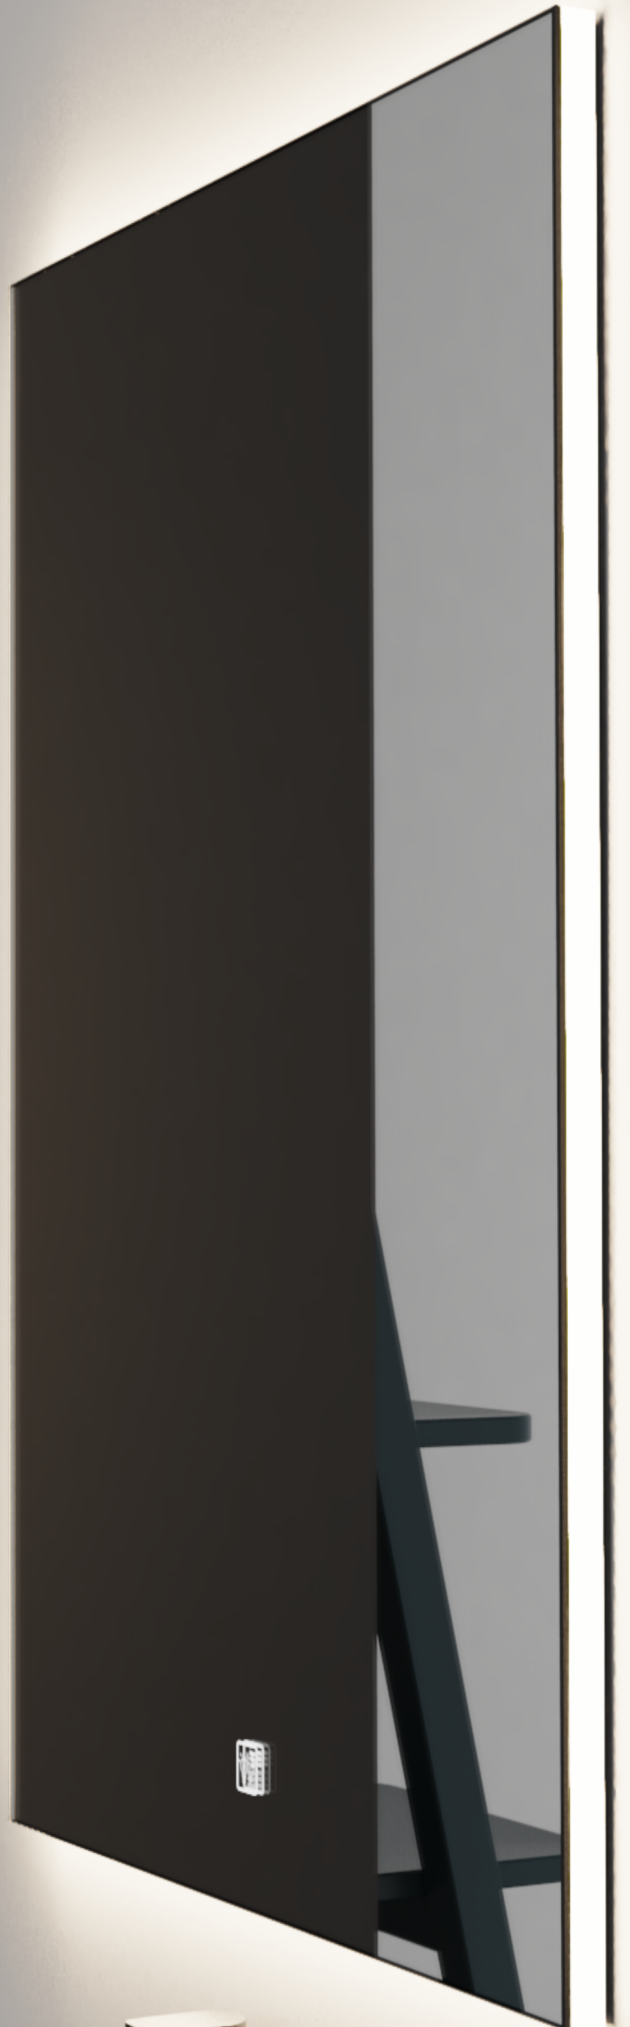

UL Listed

Ensures top-notch quality and safety in light fittings and wirings

Suitable for Wet Locations

IP 44-rated component protects from accidental water splash
